

CALL FOR APPLICATIONS FOR THE AWARD OF RESEARCH FELLOWSHIPS  
Regulation on Research Fellowships pursuant to Italian Law no. 240/2010  
Politecnico di Bari, issued by Rectoral Decree no. 252 of 05/07/2016

Rectoral Decree n. 1351/2022

## Purpose

Applications are invited for the selection running at: Department of Civil, Environmental, Land, Construction and Engineering Chemistry of the Politecnico di Bari, for the award of:

-n. 1 professional grant research fellowship (duration 12 months), for the execution of research activities within the project entitled: *"Sustainable technologies for material recovery from plastic waste dispersed in the marine-coastal environment"*, according to the annexed Activity Programme:  
*"Plastic pollution in the sea is a key issue in safeguarding the marine ecosystem and preventing adverse effects on human health. The research aims to develop a new treatment scheme, in line with the circular economy principles, to recover materials from plastic waste dispersed in the marine environment. The results will make it possible to develop a socially and environmentally sustainable technology for the conservation of the marine ecosystem and economically viable. In addition, the results will be used to strengthen the blue economy strategy and to plan environmental protection policies, including adapting port systems to better environmental standards. The scale-up of the proposed recovery chain will enable the introduction of more sustainable technologies to close the cycle of plastic waste dispersed in the environment"*.

The call for applications for the research fellowship issued pursuant to the University Regulation issued by Rectoral Decree (D.R.) no. 252/2016.

The activities shall be carried out under the supervision of a tutor, Scientific Manager Prof. Michele Notarnicola in a non-subordinate relationship with no set working hours.

The main place of work will be: Centro Interdipartimentale "Magna Grecia" – Viale del Turismo n. 8, Taranto/DICATECh – Via Edoardo Orabona n. 4, Bari

-n. 1 professional grant research fellowship (duration 18 months) , for the execution of research activities within the project entitled: *"Innovative processes of HBIM and 3D City Model: digitization for the management and valorization of the cultural heritage of Taranto city"*, according to the annexed Activity Programme:  
*"The research focuses on the theme of knowledge dissemination aimed at the valorization of the historical-architectural and environmental heritage, implemented through the application of an innovative approach for the digital restitution of heritage, through the use of H-BIM, 3D City Model and VR type of processing models. The realization of a metric, parametric, semantic and visual approach to the management of the existing heritage will allow the creation of a tool capable of easily transmitting knowledge of the territory and its resources on a national and international scale. Such an approach becomes instrumental in the establishment of a platform interoperable by different actors and capable of helping to compose an experimental model to help interpret the "complex system." Various methodologies are available for documentation, from hand-drawing to scanning, from topographic and photogrammetric surveying to satellite surveying and special techniques, the integration of which can be implemented through data fusion processes and input into GIS. All the processes are necessary for the realization of a 3D digital representation, which will constitute a toolkit/guide-book capable of correlating and systematizing the use of the different known and/or experimental methodologies/technologies adopted as part of this process, which can be shared, transferred and easily usable to public and private actors."*.

The call for applications for the research fellowship issued pursuant to the University Regulation issued by Rectoral Decree (D.R.) no. 252/2016.

The activities shall be carried out under the supervision of a tutor, Scientific Manager Prof. Domenica Costantino in a non-subordinate relationship with no set working hours.

The main place of work will be: Laboratorio di Geomatica c/o Centro interdipartimentale Magna Grecia Viale del Turismo n. 8, Taranto/DICATECh – Via Edoardo Orabona n. 4, Bari
